### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-5 have been cancelled.

2. The following is an examiner's statement of reasons for allowance:

US Pat No 5,695,643 to Brandt et al. discloses a method of treating water including steps filtering a chlorinated feed water in<sup>a</sup> chlorine-tolerant filter having the recited pore size, distilling and anti-scale treating the water, and further discloses that the water produced is suitable for drinking and irrigation (col. 8, lines 40-52). In the examiner's opinion, the prior art fails to teach or fairly suggest the additional step of flowing the water to produce USP or water for injection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
